EDUCATION

- Sathyabama University, Chennai** 2026
BE, CSE(Iot and Automation) CGPA: 8.56/10
- Sri Visvashanthi college** 2022
Board of Intermediate Education, Andhra Pradesh Percentage: 94.6
- Keshava Reddy School** 2020
Board of Secondary Education, Andhra Pradesh CGPA: 10/10

EXPERIENCE

Centre For Remote Sensing and Geoinformatics(SIST,RESEARCH INTERN) Certificate

PERSONAL PROJECTS

- Natural Disaster Forecasting with Streamlit and Machine Learning** Source Code Link
Developed a state-of-the-art machine learning model to predict the probability of natural disasters.
 - **Tools & technologies used:** Google Colab, Python, Scikit-learn,Machine Learning Algorithms,Streamlit
 - Utilized advanced machine learning techniques to predict natural disasters like Earthquake,Floods,Drought.
 - Achieved Accuracy of 98.2 ,99.40 and 80.9 with Earthquake,Floods and Drought datasets respectively.
 - Built an interactive web-based user interface using Streamlit for real-time prediction and visualization.
 - Collaborated in a 2-member team for end-to-end development.
- Telecom Customer Churn Prediction Web Application Using Machine Learning** Source Code Link
Implemented a machine learning model to predict customer churn in the telecom sector.
 - **Tools & technologies used:** Jupyter Notebook, Python, Scikit-learn,Machine Learning Algorithms,Flask
 - Implemented the AdaBoost algorithm, achieving a prediction accuracy of up to 81.
 - Successfully developed and deployed a real-time customer churn prediction model via a Flask web app, delivering actionable insights that help telecom companies enhance customer retention strategies.
 - Handled the complete project lifecycle individually, including data preprocessing, model training, web app development, and deployment.
- B2B Inventory and Order Management System** Source Code Link
B2B app for inventory, orders, login, tracking.
 - **Tools & technologies used:** Visual Studio Code, GitHub,React.js, Node.js, Express.js, MongoDB, JWT, REST API
 - Built a platform for managing B2B logistics, inventory, and order processes.
 - Integrated real-time tracking and updates for smooth operations.
 - Implemented secure login and authorization using JWT for user security.
 - Collaborated in a 2-member team for end-to-end development.

TECHNICAL SKILLS AND INTERESTS

Technical Skills: C++,Python,SQL,HTML,CSS,JavaScript,Flask,Streamlit,C# REACT

Areas of Interest: Data Structures and Algorithms, Machine Learning,Gen AI,Dotnet,Full Stack Web Development.

Tools: VS Code,Github,Android Studio,Jupyter,Postman.

Other Skills: Team Management and Working abilities, Leadership, Adaptability, Multitasking, Communication Skills.

SELF LEARNING AND ACCOMPLISHMENTS

- Hackathon Certified:** Woodpecker Hackathon
- Hackathon Certified:** NammaYatri Mobility Challenge
- Nptel Certified:** Software Conceptual Design
- Nptel Certified:** Foundation of Cloud Iot Edge ML

POSITIONS OF RESPONSIBILITY

- **TeamLead(College Hackathon Club)**, responsible for organizing and leading hackathons *2023-2026*
- **Student Coordinator(College SoftSkills Club)**, Member *2023-2026*
